

If used in this report, the term “the Company” is in reference to Outhouz, Inc., d.b.a The Lood Company, and its subsidiaries, unless the context clearly indicates otherwise.

Summary

September was exciting as the project received listings on [CoinHunt](#), [Nomics](#), [Coinrankings](#) and [CoinSniper](#) respectively. As a result we have extended our month-over-month column to include the “Total” amount of LOOD in circulation. A bounty campaign has also begun which has allowed us to take a more structured approach to token distribution.

In addition, plans to circulate 5,000,000 LOOD issued at approximately **\$0.00012** per token will continue according to the guidelines outlined in [the most recent promotion](#). This is expected to equate to over 500 new holders.

Sep 2021	USD/Qt	M/M/T
Holders	5(578)	~50%
Net income	25	100%
Token price	0.00012	0%
